Experience

Meta, Superintelligence Labs AI tools Product Designer
July 2026 - Current

- Led team onboarding strategy and shared-memory setup for Meta's internal agent orchestration platform, scaling adoption across Sales, Legal, Engineering, and Product, to **~2,500** weekly active users with **~70%** week-over-week retention in alpha.
- Designed Metacode, an internal terminal native AI coding assistant for **70,000+** engineers, raising week-over-week retention by **6%**.

Meta, Superintelligence Labs growth and sharing Product Designer
January 2026 - July 2026

- Designed new sharing components across Meta's family of apps for the Muse Spark launch, which drove **+57%** daily active users in week 1 and a sustained top **10** App Store ranking.
- Built the growth and sharing playbook for Vibes, Meta's AI video app, extending it with a new share card component and a screenshot-sharing paradigm for two new AI formats, **2x** overall share rate and increasing public share daily active users **+23.8%**
- Designed the trust controls, privacy infrastructure, and artifact lifecycle for Meta AI, so users could create and share AI-generated content safely at scale; led the response to a critical privacy SEV, resolved in **3** days.

Meta, Facebook share sheet and sharing experiences Product Designer
March 2025 - December 2025

- Drove alignment across **3** sub-teams without an embedded PM, framing the problem and setting direction so each team could own its part in shipping the Reels reply bar.
- Set the vision for an org-wide perceived performance initiative, surfacing **10+** design system improvements that **3** partner teams adopted into their roadmaps.
- Shipped **5+** production code fixes for Messenger quality bugs using AI coding tools.
- Led a team of **2+** designers to define the north star vision for the Facebook share sheet

Meta, Messenger growth Product Designer
April 2024 - February 2025

- Led Messenger's friending strategy, shipping a **9** feature system and defining engagement metrics with data analysts to reach **124%** of the Facebook sessions growth target.

Meta, Messenger notes and notifications Product Designer
June 2022 - March 2024

- Designed Messenger Notes MVP; led design evolution for Messenger Music Notes, exceeding communication daily active users goal by **11%**
- Partnered with Google and Android engineer to redesign chat-heads interaction for Messenger bubbles; increased message sends **+0.3%**

TechLadies UX/UI Designer
June 2020 - September 2020

- Prototyped (Figma) an internal management system for a non-profit to match **450** migrant workers and volunteers to learn English during COVID
- Organized and hosted a remote design sprint to align non-profit organizers and product team
- Worked with Buefy design library to create hi-fidelity mockups for implementation

Skills

Front end coding · Technical prototyping · AI product design · Design systems · Agent UX · Sharing mechanics · Growth loops · Enterprise tools · Developer tools · Consumer products

Tools

Figma · Claude code · Cursor · Codex

Education

New York University
B.A Computer Science · B.S Media, Culture & Communications
