Experience

Meta, Developer tools Product Designer

July 2026 - Current

- Designed Muse Code, an internal terminal native AI Coding assistant for 70,000+ engineers
- Designed core product experiences for Meta's internal agent orchestration platform used across Finance, Sales, Legal, Engineering, and Product, which sustained 70% week-over-week retention ahead of company-wide launch
- Designed onboarding flow for custom agents, helping team leads curate context, to handle reporting, monitoring, and knowledge retrieval within Finance, Sales, Legal, Engineering, and Product teams

Meta, Super intelligence labs growth and sharing Product Designer

January 2026 - July 2026

- Owned design system for Meta AI sharing infrastructure (10+ features); drove Muse Spark GTM to +57% daily activer users in week 1 and sustained top 10 app ranking on Apple app store
- Revamped Meta AI sharing system across family of Meta apps to cater for Muse spark launch
- Drove and shipped screenshot sharing solution on Vibes app with PM director, increasing public share daily active users +23.8%
- Designed foundational platform workflows for Meta AI, including artifact lifecycle management, trust controls and privacy infrastructure (resolved critical SEV within 3 days) supporting AI-generated content at scale

Meta, Facebook share sheet and sharing experiences Product Designer

March 2025 - December 2025

- Led cross-team design (3 sub-teams, no embedded PM) to ship Reels reply bar
- Owned org-wide perceived-performance initiative; influenced 3 team roadmaps by surfacing 10+ design-system improvements
- Shipped to production code, landing 5+ vibe coded diffs to resolve Messenger quality bugs
- Owned and led team of 2+ designers to define north star vision of Facebook share sheet

Meta, Messenger growth Product Designer

April 2024 - February 2025

- Led design for Messenger friending features; achieved 124% of Facebook sessions growth target
- Designed & shipped 9-feature friending system within Messenger, collaborated with data analysts to define engagement metrics

Meta, Messenger notes and notifications Product Designer

June 2022 - March 2024

- Designed Messenger notes MVP; led design evolution for Messenger Music notes, exceeding communication DAU goal by 11%
- Partnered with Google & Android engineer to redesign chat-heads interaction for Messenger bubbles; increased message sends +0.3%

TechLadies UX/UI Designer

June 2020 - September 2020

- Prototyped (Figma) an internal management system for a non-profit to match 450 migrant workers and volunteers to learn English during COVID-19
- Organized and hosted a remote design sprint to align non-profit organizers and product team
- Worked with Buefy design library to create hi-fidelity mockups for implementation
